

TRAVELLERS' GUIDE.

GRAND TRUNK TIME TABLE.

MONTREAL, Nov. 29, 1875.	
No. 2 Day Express.....	6:15 p. m.
No. 1 Night Express.....	9:30 a. m.
No. 3 Mixed.....	6:30 a. m.
No. 4 Day Express.....	12:01 p. m.
No. 5 Night Express.....	11:15 p. m.
No. 6 Mixed.....	9:30 a. m.

STAGE ROUTES.

Stages leave the principal hotels for the un-
dermentioned places at the hours named:—
For **SPRINGFIELD**, daily, at 8 a. m. and 2 p. m.
For **ALBANY**, daily, at 8 a. m. and 2 p. m.
For **BRIDGEWATER**, Tuesday, 8 a. m.—Daily, at
8 a. m. and 2 p. m.
For **PORT JONES**, daily, at 8 a. m. and 2 p. m.
For **ST. JOHN**, daily, at 8 a. m. and 2 p. m.
The stage arrives in Belleville about noon
each day.

Daily Intelligence.

TUESDAY, FEBRUARY 29, 1876.

Town and Vicinity.

LEWIS.—The forty days fast begun to-
day, the usual services being held in the
Church.

STRONG.—"Lovely spring" is with us
again, if the almanac are to be believed,
this being the first day of the first spring
month. Winter lingers yet, however, and
seems good for another month's stay.

THE LATE FIRE.—An investigation into
charges made against the late St. Thomas
Church, in connection with the fire in St. Thomas
Church, will be commenced before the Fire,
Water and Gas Committee to-morrow night.

THE COMMISSION.—Messrs. McKibbin
and Morlan, Commissioners in the
financial affairs of the town, entered upon
the discharge of their duties this morning.
Their sittings are held in the Council
Chamber.

POLICE COURT.—Another day of business
in the Court—no cases for trial. One man
was arrested last night, but as his sole of-
fence was drunkenness, first offence, he
was liberated this morning and allowed to
take the stage for home.

MEETING.—The Liberal-Conservative
Association will meet, as advertised, in
their rooms, INTELLIGENCER building, third
floor, to-morrow at 2 o'clock p. m. Members
should make it a point to be present, as
business of importance will be transacted.
The meeting will be held at 2 o'clock p. m.

COURT COUNCIL.—The March session
of the County Council will commence on
Tuesday next at 2 o'clock p. m. It is
probable that the session will be of more
than the usual length if all the business of
importance which it is now thought will
be brought up should be gone with on.

CONCERT.—If you would like to get a
dick of Oyster, a Concert and a Social
evening, go to the Albert College on Friday night. Prof. Which
and his pupils will give one of these delightful
entertainments for the benefit of the
Ladies' Refreshment Fund Association. The
College. Admission to the Concert ten
cents.

PROFESSOR.—The many friends of
T. J. Lyssack, formerly Grand Trunk
Agent at the Belleville Station, which
position he resigned to fill a similar situa-
tion at the Great Western at Hamilton,
will be pleased to learn that the
former has returned to the responsible position of
traveling freight agent of the Eastern Dis-
patch from that road, from Suspension
Bridge to London, including the Toronto
and Wellington, Grey and Bruce lines.

ECLIPSE in 1876.—Of the four eclipses
which occur this year, and the only two
visible in North America, occur during the
month of March. One of these is of the
sun, the other of the moon. The former
begins on the morning of the 10th, a few
minutes past midnight, and continues for
two hours, reaching its maximum at a few
minutes past 1 a. m. The latter takes place on
the 25th, commencing a few minutes
before 4 o'clock p. m. and lasting about an
hour and three-quarters. Both will be
partial eclipses.

A CRUELTY.—Mr. J. W. L. Foster, of the
7th concession Division, exhibited in our
office on the 29th one of the most astonish-
ing natural curiosities that we have seen in
this time. It consisted of the skin of a
cat, to the front of the head of which was
attached a bag of skin, almost as large
as the cat's head, with nearly three gallons
of a clear as water. The cat was dead,
and the other part perfectly formed. It is
Mr. Foster's intention to have this curi-
osity studied and preserved.

THEATRICAL.—A very successful theatri-
cal performance was given in Joffe
Hall, Toronto, last night, by a number of
lady and gentlemen amateurs residing in
that village. The entertainment was of the
highest quality, and the performance of the
Trenton Lodge of Odd-fellows, and everything passed off satisfac-
torily, the performers acquiring themselves
like veterans. After the play dancing be-
gan and was carried on with spirit for
several hours. A number of visitors from
Belleville were present, all of whom speak
in the warmest terms of the excellence of
the performance and the hospitality of their
Trenton friends.

RESTRICTION OF LICENSES.—At a meet-
ing of the Trenton Village Council held on
Monday night last, a motion, signed by
several of the members, was carried, and
was largely signed by the ratepayers.
They were presented, asking for a restriction
of the tavern and shop licenses to be issued
in the municipality during the year. After a
long and animated discussion on the subject,
the Council resolved to reduce the number
of tavern licenses to six, and to issue only
one shop license, the amount of license fee
being fixed at \$150 for shop and tavern li-
censes. The village has previously had ten

taverns and three shops licensed for the

sale of liquor. Thus a considerable reduc-

tion in the number of licenses for the sale

of liquor in Trenton has been made.

PRINCE EDWARD RAILWAY.

We find the following case in the Court of Chancery
reported in the Toronto papers: "The
Prince Edward County Railway Company
vs. the County Council of Prince Edward
County came up this morning in the Court.
Mr. James B. O'Connell, and Mr. J. C.
Hamilton, for plaintiffs moved for injunc-
tion to restrain the County Council from
republishing a by-law passed by them grant-
ing a bonus of \$85,000 to aid in the con-
struction of the plaintiff railway. Affidavits
were read, showing that work had been
commenced, but owing to various difficul-
ties in the locality and the money market,
had not been completed, but that the
County Council had waived all such ob-
jection, and that the road would soon be
going under way. Injunction granted.

RECORDED.—The clever cartoonist, Mr.
J. W. Brough, will deliver one of his
lectures, illustrated in his usual able man-
ner, by caricatures of prominent individ-
uals, in the Town Hall, on Thursday even-
ing. Those who have seen and heard him
will go again, whilst those who have not
will go to see. To this latter class we
commend the following notice from the
Leader: "Last evening in Shaftesbury
Hall, Mr. J. W. Brough, the popular
cartoonist of Grog, gave his usual lectur-
ative and humorous lecture, bearing the
above named title. It was pleasing to
note, that on account of the familiar ac-
quaintance of Torontonians with Mr. Brough,
the lecture was not only a highly intel-
lectual and appreciative audience, who
were kept interested and delighted for up-
wards of two hours and a quarter—inter-
ested by the many facts, but all original,
humorous, and of delighted with the un-
mistakable and not over exaggerated car-
icatures sketched by the lecturer. One of
the most entertaining of these, perhaps, was
the caricature of the picture of the late
Governor, which was a representation of Mr. Hon. Sir
John A. Macdonald and the Hon. George
Brown looked in each other's arms in the
struggle for victory, with the hatched bur-
den up to the handle in the center. Mr.
Brough's happy hits were in the delineation
of distinguished and well-known charac-
ters, which called forth repeated rounds
of applause, but further comment is un-
necessary."

To the Editor of the Intelligence.

Free Trade and Protection.

The almost universal disapproval which
the action of the Government, in not affor-
ding some measure of protection to the man-
ufacturing interests of the country has pro-
duced, and the great protest against the
policy, in relation to the principles of Free
Trade and Protection created by the present
depression of trade and the policy enacted
by the Finance Ministry, has led Mr. Mac-
donald, the one man and Dr. Tupper and
Sir John Macdonald on the other, will doubt-
less lead to a full discussion of these principles
in the press and through the country.
It will scarcely be denied that such an
argument which chiefly determines the
great mass of those who adopt either the one
principle or the other. The remainder are
the philosophers who will have a theory at
any cost. The views of the former originate
in their pockets, and are advanced without
regard to either the theories of political econ-
omy or the welfare of the country. These
gentlemen who form the protectionist de-
putations, which almost daily interview the
Government are of this class, and their recom-
mendations, made from selfish motives, and
not from the actual people with justice. The
Canadian philosopher, such as Mills, Young
and Thompson, who sit at originality in the
field of political economy and who, like
Mr. Macdonald, Mr. George Brown, and
Mr. Cobden, and who are bound to carry out
the teachings of the Cobden Club without regard
to circumstances, are equally to be distrusted.
Free Trade is the abstract and a sound
principle when it can be applied fairly, and
under circumstances which will not work in-
jurious to any of the parties to it but in
the circumstances as regards Canada, and
the United States under which free trade be-
tween the two countries will not work injuri-
ously to the former is the difficulty. Under
the present circumstances, it is a question
whether it is the abstract and a sound
principle when it can be applied fairly, and
under circumstances which will not work in-
jurious to any of the parties to it but in
the circumstances as regards Canada, and
the United States under which free trade be-
tween the two countries will not work injuri-
ously to the former is the difficulty. Under
the present circumstances, it is a question
whether it is the abstract and a sound
principle when it can be applied fairly, and

Dec. 10, 1875. d.f.

Daily Intelligencer.
Agriculture and Arts Association.
(From the Ottawa Citizen.)
The annual meeting of the Council of the Ontario Agricultural and Arts Association, was held at the Clarendon House, Ottawa, on the 25th of February. There were present Mr. Dr. Burdett, Messrs. Jas. Fraser, William, Stock, J. White, I. Morgan, J. G. Graham, M. P. Shipley, James Young, M. P., Sheriff Gibbons, and H. C. Thompson, Secretary.
The first business of the meeting was to elect a President, and on the motion of Dr. Burdett, Mr. J. Morgan was unanimously chosen for the ensuing year.
Mr. Shipley was elected Vice-President, on the motion of Sheriff Gibbons, seconded by Mr. Shipley. Mr. J. Morgan was again voted in to the Treasurer, an office which he held for many years.
Mr. Thompson, the Secretary, then read the minutes of the last Council, which were confirmed.
Mr. W. H. Fraser, the Secretary of the Ontario Advisory Board of the Centennial Exhibition at Philadelphia, here entered the room.
Mr. Graham, the Treasurer, presented the Audited Report, which showed a balance to the credit of the Association of \$8,219.74 on the year's transactions.
Mr. Stock read the following communication from Mr. George Roach, the Mayor of Hamilton, relative to the holding of the next exhibition in that city:
HAMILTON, Feb. 26th, 1876.
To the President and Directors of the Agricultural and Arts Association of the Province of Ontario.
Gentlemen:—I have very great pleasure in informing you that I am authorized to guarantee that should a committee be formed for holding the Provincial Exhibition at this city (or any other city in the Province) in 1877, I will be as liberal as in former years, in assisting to make the exhibition a success, and better than any that have hitherto been held.
I have the honor to be, Sir, your obedient servant,
Geo. Roach, Mayor.

It was moved by Mr. White, seconded by Mr. Gibbons, and Mr. Fraser, Messrs. Morgan, M. P., Gibbons, Fraser, Mackenzie, Howell, M. P., and the mover, to be a committee to report to the Council, the names of the gentlemen to act on the various standing committees for the year—Carried.
The Secretary read reports of several shows and ploughing matches, to which the Association had given prizes. The reports were, without exception, approved.
Mr. Fraser was then heard as to the matters he wished to lay before them in connection with the Philadelphia Exhibition, having regard to live stock in particular, the display of which, he said, will be held in the months of September and October—the period to each class and family being 10 days. The division of time will be as follows:—Horses from 1st to 15th September; horned cattle (of all kinds), 20th September to 10th October; sheep and swine, 10th to 25th October; and poultry, 25th October to November 10th. The rules to be observed in the entry of animals and poultry for exhibiting were explained by Mr. Fraser at length. He said that exhibitors of live stock were not to be charged for the use of stalls, and that the Commission assure exhibitors that precautions will be taken for the safe keeping of all objects sent, and it will be responsible for damage or loss, or for accidents by fire or otherwise. The Canadian Commission will provide for feeding their stock, and depots conveniently located within the grounds, and he assured them that all possible care would be exercised over all animals sent to the Exhibition. He expressed a hope that the show, so far as the live stock was concerned, would be a large one, and stated that he had not had public organizations offered large prizes for that class of stock, but private associations and individuals had done so also. He instanced one case in point, where a premium of \$5,000 was offered for the best herd of Guernsey cattle, and there are several trophies worth competing for. He wanted to see Canada creditably represented, and he trusted that breeders would manifest any apathy in coming forward, and that they would lend their aid in showing what the Dominion could produce. He should like to see the dairy products also well represented. He should like to see the Dominion well represented in the exhibition, and he trusted that the Dominion's and Miller's Association to render him all the assistance in their power.
After some further remarks of a general nature concerning the exhibition, a resolution was passed, that the Dominion's and Miller's Association to render him all the assistance in their power.
Mr. Burdett urged the importance of having good stock of fruit at the Centennial. He concluded an interesting paper by moving the following resolutions:—That this Council, before deciding on forwarding the best interests of Canada at the Centennial Exhibition, and having heard of the Mr. Fraser, of the Advisory Board of Ontario, hereby appoint Messrs. Young, Howell, Morgan and the mover to wait upon Mr. Letellier de St. Joseph, and to the Dominion Government the importance of exhibiting their products, and that the Fruit Growers' Association be asked to the amount of \$5,000.
The meeting then adjourned until the next morning.
The Council met at 9:30 on March 1st. The Committee appointed to report on the Standing Committees reported as follows:—
Executive.—The President, Messrs. Gibbons, Burdett, Shipley, White, Clegg, and Stock.
Finance.—Messrs. Young, Shipley, Morgan, Byrnes, and Bell.
Patronage.—Messrs. Clegg, Letellier, Wilson, Howell, Young and Fraser.
The Secretary submitted his annual report, giving a statement of the business of the past year.
Dr. Burdett asked whether the board had control over the book in the library of the Agricultural College at Toronto, a good deal of discussion was elicited by this question, but no definite conclusion was reached.
The following gentlemen were appointed as a deputation to wait upon the Minister of Agriculture in order to ascertain what assistance he would be willing to grant for the exhibition of the products of the Dominion, viz:—Messrs. Young, Morgan, Burdett, Burdett, Ballantyne, Daly, Fraser, and Clegg.
Mr. Young, of the Finance Committee, reported that they had examined the Auditor's report, and he moved that it be now adopted.
The committee then adjourned until seven o'clock p. m.

J. M. FEARNLEY,
Dec. 10, 1875. d.f.

Letellier was favorable to the views of the deputation, and promised to lay the matter before the Commission.
A shilling, ill spent by a fool, may be picked up by a wise man who knows better what to do with it, so it is not lost.
Our little man, through Sweden and Norway with forty concerts in six weeks. In Copenhagen, Denmark, the master's last division of the little made the audience wild with excitement. Flowers, wreaths and thundering applause were showered upon him. The house was crowded to excess. Thousands were outside of the hall, clamoring for admission. The great crowd from Copenhagen to Germany and thence to France, Russia, Roumania, Turkey and Egypt.
Unlimited Remedial Resources.
People sometimes suppose that Dr. Pierce's Family Medicine represents the entire extent of his resources for curing disease. This is an error. Experience proves that while the Golden Medical Discovery, Favorite Prescription, Pleasant Purgative Pills, Catarrh Remedy, &c., which he has made, cure a large variety of diseases, there would be here and there a case which, from its severity, or from its complication with other diseases, would resist their action. These exceptional cases require a thorough examination into their symptoms, and the exact nature and extent of the disease or diseases under the patient was suffering and the use of specific remedies to meet and overcome them. This is the establishment of the Medical Dispensary, at Belleville, N. Y., with its Family of Physicians and Surgeons, each of whom is well versed in the treatment of chronic diseases in general and those belonging to his own special department in particular. To one engaged in a perfect digestive system, to another disease of the eye, and in medicine and surgery is attained. The establishment of this institution enables the Doctor to meet a long list of cases in the treatment of the most severe chronic affections. As a sign in writing, he thoroughly treats thousands of cases at his home. Others who are unable to attend to their own cases, can procure a more thorough and efficient course by a personal application to the proprietor of the Medical Dispensary.
It was moved by Mr. White, seconded by Mr. Gibbons, and Mr. Fraser, Messrs. Morgan, M. P., Gibbons, Fraser, Mackenzie, Howell, M. P., and the mover, to be a committee to report to the Council, the names of the gentlemen to act on the various standing committees for the year—Carried.

Dec. 10, 1875. d.f.

Letellier was favorable to the views of the deputation, and promised to lay the matter before the Commission.
A shilling, ill spent by a fool, may be picked up by a wise man who knows better what to do with it, so it is not lost.
Our little man, through Sweden and Norway with forty concerts in six weeks. In Copenhagen, Denmark, the master's last division of the little made the audience wild with excitement. Flowers, wreaths and thundering applause were showered upon him. The house was crowded to excess. Thousands were outside of the hall, clamoring for admission. The great crowd from Copenhagen to Germany and thence to France, Russia, Roumania, Turkey and Egypt.
Unlimited Remedial Resources.
People sometimes suppose that Dr. Pierce's Family Medicine represents the entire extent of his resources for curing disease. This is an error. Experience proves that while the Golden Medical Discovery, Favorite Prescription, Pleasant Purgative Pills, Catarrh Remedy, &c., which he has made, cure a large variety of diseases, there would be here and there a case which, from its severity, or from its complication with other diseases, would resist their action. These exceptional cases require a thorough examination into their symptoms, and the exact nature and extent of the disease or diseases under the patient was suffering and the use of specific remedies to meet and overcome them. This is the establishment of the Medical Dispensary, at Belleville, N. Y., with its Family of Physicians and Surgeons, each of whom is well versed in the treatment of chronic diseases in general and those belonging to his own special department in particular. To one engaged in a perfect digestive system, to another disease of the eye, and in medicine and surgery is attained. The establishment of this institution enables the Doctor to meet a long list of cases in the treatment of the most severe chronic affections. As a sign in writing, he thoroughly treats thousands of cases at his home. Others who are unable to attend to their own cases, can procure a more thorough and efficient course by a personal application to the proprietor of the Medical Dispensary.
It was moved by Mr. White, seconded by Mr. Gibbons, and Mr. Fraser, Messrs. Morgan, M. P., Gibbons, Fraser, Mackenzie, Howell, M. P., and the mover, to be a committee to report to the Council, the names of the gentlemen to act on the various standing committees for the year—Carried.

It was moved by Mr. White, seconded by Mr. Gibbons, and Mr. Fraser, Messrs. Morgan, M. P., Gibbons, Fraser, Mackenzie, Howell, M. P., and the mover, to be a committee to report to the Council, the names of the gentlemen to act on the various standing committees for the year—Carried.
The Secretary read reports of several shows and ploughing matches, to which the Association had given prizes. The reports were, without exception, approved.
Mr. Fraser was then heard as to the matters he wished to lay before them in connection with the Philadelphia Exhibition, having regard to live stock in particular, the display of which, he said, will be held in the months of September and October—the period to each class and family being 10 days. The division of time will be as follows:—Horses from 1st to 15th September; horned cattle (of all kinds), 20th September to 10th October; sheep and swine, 10th to 25th October; and poultry, 25th October to November 10th. The rules to be observed in the entry of animals and poultry for exhibiting were explained by Mr. Fraser at length. He said that exhibitors of live stock were not to be charged for the use of stalls, and that the Commission assure exhibitors that precautions will be taken for the safe keeping of all objects sent, and it will be responsible for damage or loss, or for accidents by fire or otherwise. The Canadian Commission will provide for feeding their stock, and depots conveniently located within the grounds, and he assured them that all possible care would be exercised over all animals sent to the Exhibition. He expressed a hope that the show, so far as the live stock was concerned, would be a large one, and stated that he had not had public organizations offered large prizes for that class of stock, but private associations and individuals had done so also. He instanced one case in point, where a premium of \$5,000 was offered for the best herd of Guernsey cattle, and there are several trophies worth competing for. He wanted to see Canada creditably represented, and he trusted that breeders would manifest any apathy in coming forward, and that they would lend their aid in showing what the Dominion could produce. He should like to see the dairy products also well represented. He should like to see the Dominion well represented in the exhibition, and he trusted that the Dominion's and Miller's Association to render him all the assistance in their power.
After some further remarks of a general nature concerning the exhibition, a resolution was passed, that the Dominion's and Miller's Association to render him all the assistance in their power.
Mr. Burdett urged the importance of having good stock of fruit at the Centennial. He concluded an interesting paper by moving the following resolutions:—That this Council, before deciding on forwarding the best interests of Canada at the Centennial Exhibition, and having heard of the Mr. Fraser, of the Advisory Board of Ontario, hereby appoint Messrs. Young, Howell, Morgan and the mover to wait upon Mr. Letellier de St. Joseph, and to the Dominion Government the importance of exhibiting their products, and that the Fruit Growers' Association be asked to the amount of \$5,000.
The meeting then adjourned until the next morning.
The Council met at 9:30 on March 1st. The Committee appointed to report on the Standing Committees reported as follows:—
Executive.—The President, Messrs. Gibbons, Burdett, Shipley, White, Clegg, and Stock.
Finance.—Messrs. Young, Shipley, Morgan, Byrnes, and Bell.
Patronage.—Messrs. Clegg, Letellier, Wilson, Howell, Young and Fraser.
The Secretary submitted his annual report, giving a statement of the business of the past year.
Dr. Burdett asked whether the board had control over the book in the library of the Agricultural College at Toronto, a good deal of discussion was elicited by this question, but no definite conclusion was reached.
The following gentlemen were appointed as a deputation to wait upon the Minister of Agriculture in order to ascertain what assistance he would be willing to grant for the exhibition of the products of the Dominion, viz:—Messrs. Young, Morgan, Burdett, Burdett, Ballantyne, Daly, Fraser, and Clegg.
Mr. Young, of the Finance Committee, reported that they had examined the Auditor's report, and he moved that it be now adopted.
The committee then adjourned until seven o'clock p. m.

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

THURSDAY, March 2.

The Speaker took the chair at 2 o'clock.

OFFICIAL REPORTING.

Mr. MASSON, the report for motions being
called, then moved, "That the second reading
of the Printing Committee be concurred in."

Mr. DELORE moved an amendment "That it
be not adopted, but that the House adhere
to the motion of the Committee, and that the
Committee be instructed to secure and publish
as may be necessary to ensure the prompt
execution of the work."

Mr. MASSON asked if that motion was in
order. It was not moved that the report
be referred back to the Committee?

Mr. BOWEN asked, also, if it was not a
motion of the House?

Mr. DELORE said that the amendment was
brought forward in order to secure the
prompt execution of the work.

After some discussion with reference to the
sense in which the words of the first report
were to be taken, Mr. SPEAKER ruled the amendment in
order.

Mr. BOWEN then went on to say that he
thought that the course which had been
pursued in regard to this matter was a direct
reproach to the unimpeachable House of
Commons.

He was taking from the House the power
to do what it pleased, and which had a right to
exercise in the interest of the country.

The Committee was made on the 14th February,
and the next day, so urgent was the necessity
of having the work of translating the speeches
considered to be, that the members of it met
on the 15th, and the President of the House,
Mr. DELORE, presided.

After considering for some time the
question as to what was the last motion of
the Committee in order to do, he then proposed
that the Committee should be instructed to
prepare a report on the subject.

He then moved an amendment "That the
House do not assent to the report of the
Committee, but that the House do assent to
the report of the Committee, and that the
Committee be instructed to secure and publish
as may be necessary to ensure the prompt
execution of the work."

Mr. DELORE moved an amendment "That it
be not adopted, but that the House adhere
to the motion of the Committee, and that the
Committee be instructed to secure and publish
as may be necessary to ensure the prompt
execution of the work."

Mr. MASSON asked if that motion was in
order. It was not moved that the report
be referred back to the Committee?

Mr. BOWEN asked, also, if it was not a
motion of the House?

Mr. DELORE said that the amendment was
brought forward in order to secure the
prompt execution of the work.

After some discussion with reference to the
sense in which the words of the first report
were to be taken, Mr. SPEAKER ruled the amendment in
order.

Mr. BOWEN then went on to say that he
thought that the course which had been
pursued in regard to this matter was a direct
reproach to the unimpeachable House of
Commons.

He was taking from the House the power
to do what it pleased, and which had a right to

A Toast.

Two important Discoveries! The discovery
of America by Columbus and Dr.
Price's Golden Medical Discovery; the one
opening up to mankind a new continent;
the other a fountain of life, which is in-
dispensable to the full enjoyment of life, and
the most important in the history of the
human race.

GRAY'S

SYRUP OF RED

SPEUCEGUM.

FOR

CROUPS, COLDS, LOSS OF VOICE, HOARSENESS,

BRONCHIAL AND THROAT AFFECTIONS.

The Gum which exudes from the Red Spruce

tree, is without doubt, the most valuable

any Gum for medicinal purposes.

The remarkable power in relieving certain

croupy forms of lung inflammation, and its

efficacy in curing obstinate hacking cough,

is now well known to the public at large.

In this Syrup (carefully prepared) all the

beneficial properties of the Gum are con-

centrated, containing a large quantity of the

Gum and Gum in complete solution, all the

Daily Intelligence.**DOMINION PARLIAMENT.****DEBATE ON THE TARIFF****SIR JOHN MACDONALD'S SPEECH****ON HIS AMENDMENT.**

On the motion for the House to go into
Committee of Supply.

Sir John Macdonald said he rose for the
purpose of proposing the motion which he
and gentlemen on the other side of the
House, as the House had observed, was a
complement, a fulfillment of the proposition
made by his hon. friend from Montreal West
in making a motion, which a sense of duty
compelled him to do. (Sir John) rose without
any hope of getting a majority of the House
to assent to it. The declared course of the
majority of the Government and the support
which that policy received at the hands
of a majority of the House, he (Sir John) had
no doubt, was a matter of course. The Govern-
ment compelled him to believe that no motion
favorable to the protection of our
great industries, both manufacturing and agri-
cultural, would meet with the sanction of
the House. That the first place the country
and the House had a right to find a different
opinion. It had been announced by some-
body that the Government was in a position
to make a concession, and that the Govern-
ment, in an explicit manner, was in a position
to make a concession, and that the Govern-
ment was in a position to make a concession.
The Government was in a position to make a
concession, and that the Government was in a
position to make a concession. The Govern-
ment was in a position to make a concession,
and that the Government was in a position to
make a concession. The Government was in a
position to make a concession, and that the
Government was in a position to make a con-
cession. The Government was in a position to
make a concession, and that the Government
was in a position to make a concession. The
Government was in a position to make a con-
cession, and that the Government was in a po-
sition to make a concession. The Govern-
ment was in a position to make a concession,
and that the Government was in a position to
make a concession. The Government was in a
position to make a concession, and that the
Government was in a position to make a con-
cession. The Government was in a position to
make a concession, and that the Government

ALBION HOTEL,

MCGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

Has for twenty years past been the favorite resort of the general travelling public in the city of Montreal, and is one of the best of Canada, where visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of the Square and Mount Royal on the right. The Hotel is furnished in a superior manner, and everything arranged with a view to the comfort and convenience of guests. The charges will be moderate. The travelling community will concur in its high estimate by commencing the Albion Hotel, when visiting Montreal.

Iron in the Blood

PERUVIAN

IRON

SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected

Solution of the Protosulphate of

Iron, is the most powerful and

characteristic of an aliment, as

it contains the most perfect

of the blood as the simplest

food. It increases the quantity

of Nature's Own Vitalizing

Agent, Iron in the blood, and

cures all diseases originating

by Tonicing up, invigorating and

Vitalizing the System. The only

and all diseases of the blood, per-

meates every part of the body,

curing Dyspepsia, Liver Com-

plaint, Dropsy, Chronic Dia-

rrhoea, Boils, Nervous Affections,

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

THE SENATE.

TUESDAY, March 14.

Mr. VIVIAN moved for a Committee of five
members, viz., Messrs. Adams, Alexander,
Armstrong, Benson, Buzan, Ferris, Finlay,
Girard, Macdonald, McLean, McDonald,
Macdonald, Montgomery, Ward, and the
motion to examine and report on the several
petitions relating to legislative prohibition of
the traffic in liquor. He said the House
should not imagine these were mere no-
petitions presented to Parliament. The motion
on this subject that there was any abatement
of the traffic in liquor. The motion was
carried by a large majority. The reason
why no petitions were presented was because
it was the advice of the Temperance Con-
vention at Montreal. The petition from the
Convention represented the wishes and
prayer of all temperance associations in Can-
ada.

The Committee was granted.

A debate ensued on the following res-
olution moved by Mr. Ross: "That in the
opinion of this House the practice of the
Government in the disposal of public lands
in the banks of the Dominion is calculated
to produce undue and unequal competi-
tion and to injure the interests of the
people of the Dominion." The motion was
carried by a large majority. The reason
why no petitions were presented was because
it was the advice of the Temperance Con-
vention at Montreal. The petition from the
Convention represented the wishes and
prayer of all temperance associations in Can-
ada.

The Committee was granted.

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

Mr. Thompson moved to take the preliminary stage for the resolution of Mr. Donohue, member elect for Two Mountains, on the ground that he had been convicted of forgery.

Mr. Masson deprecated this motion, and stated that he was not guilty because he had not been convicted of forgery. He said that he had been convicted of forgery, but that he had been acquitted of forgery. He said that he had been convicted of forgery, but that he had been acquitted of forgery.

Mr. Cameron (Carleton) said it appeared that that gentleman was indicted twice for forgery. On the first occasion he had authority to put the name which he did to the document, which was that he was a forger. On the second occasion he was indicted for forgery, and he was acquitted. He said that he had been convicted of forgery, but that he had been acquitted of forgery.

Mr. Masson deprecated this motion, and stated that he was not guilty because he had not been convicted of forgery. He said that he had been convicted of forgery, but that he had been acquitted of forgery. He said that he had been convicted of forgery, but that he had been acquitted of forgery.

Immigration Matters.

An Ottawa report says on the 15th inst.

Mr. Lowe was examined before the committee on Immigration, and stated that

length into applications with regard to the statement submitted to the Committee at its first meeting.

He said that ever since the great exodus which resulted from the potato famine in Ireland, the stream of immigration which had flowed into this country

had been an aided immigration directed by the Government or by friends of the immigrants, as the wages of the laborers

at 14 shillings a week were not sufficient to enable them to put aside savings to enable

them to pay the passage of themselves and their families.

The expense of the London office had gone on increasing from £20,000 in 1874, and £17,000 in 1875.

The cost of immigration agents had decreased from £90,000 in 1873 and 1874, to £85,000 in 1875 and 1876.

There was an increase in the latter part of 1874 in special warrants, owing to an agreement come to with Joseph Arch to assist the immigration of agricultural laborers.

Mr. White (East Hastings) was of the opinion that \$50,000 was too much to pay for the small number of immigrants brought out, besides which the Province of Ontario

was not doing much to assist the immigration of the pauper class.

He was afraid that the class of immigrants brought out only went to swell the number dependent on the soup-kitchens.

It was fact that many of the immigrants came from the cities and not from the agricultural class at all.

Mr. White severely criticised the Government for incurring expense in fitting up an office for Mr. Jenkins in London.

MORNING DESPATCHES.

AMERICAN.

A \$30,000 FINE.

An Other Shot Dead while ar-

resting on illicit distiller.

CONSPIRACY AND LIEB.

The Alma House Tragedy.

Fatal Robbery Accident.

CAPTURE OF CUBAN SUPPLIES.

KILLED BY CONVICTS.

PHILADELPHIA, March 17.—Last night the

Standard carpet mill in this city was dam-

aged by fire to the extent of \$30,000, a

millionaire.

WASHINGTON, March 17.—Last week a

Duckworth, Deputy United States Marshal,

went alone to arrest an illicit distiller named

Colony, near the corral of Greavesville

County, N. C., and while making his warrant

he was shot dead by the distiller, killing

him almost instantly. No attempt has yet

been made to arrest the murderer.

HARRISON, N. C., March 17.—Joshua Turner,

owner of the Raleigh distillery, and W. H. H.

Haworth, Secretary of State were arrested

yesterday on a charge of conspiracy and

violation of the laws.

NEWARK, N. J., March 17.—The jury of

Inquest of the Alma House fire return a

verdict condemning the construction of the build-

ing, and ordering the bodies of the deceased

to be buried in the cemetery.

CHICAGO, March 17.—Floyd, indicted ex-

cessed Collector, who left for Canada,

was arrested by the police at the Hotel

Dexter, in which he says he took steps at the

advice of his friends, and because

he knew that enough of perjured testimony

would be given to him that he was not

him a scape goat for the crime of others. He

would return as soon as he became convinced

that he could obtain a fair trial, for the lan-

guage was not to him that he was not

him a scape goat for the crime of others. He

would return as soon as he became convinced

that he could obtain a fair trial, for the lan-

guage was not to him that he was not

him a scape goat for the crime of others. He

would return as soon as he became convinced

that he could obtain a fair trial, for the lan-

guage was not to him that he was not

him a scape goat for the crime of others. He

would return as soon as he became convinced

that he could obtain a fair trial, for the lan-

guage was not to him that he was not

him a scape goat for the crime of others. He

would return as soon as he became convinced

that he could obtain a fair trial, for the lan-

guage was not to him that he was not

him a scape goat for the crime of others. He

CHAPTER XVII.

A BRICK TURNS UP.

THE snow had been all night falling fit-
tly on the long elm avenue of
Springfield.

It was one of those soft, moist, dreamy
snow-falls, which come down in great loose
fathoms, resting in magical frost-work on
every tree, shrub, and plant, and seeming to
bring down with it the purity and peace of
upper worlds.

Grace's little cottage on Elm Street was
unimpaired, as New England cottages are
apt to be, in a tangle of shrubbery, over-
grown, spry, and alive, which on such
occasions, become bowers of enchantment,
when the morning sun looks through them.

Grace came into her parlor, which was
cheery with the dazzling sunshine, and
trusting to the winter, began to examine
anxious the state of her various greenhouses,
passing from time to time to look out upon
the stock of social life in Springfield, and
with many treasured tints of rose, lilac
and blue.

The only thing wanting was some one to
speak to about it; and with a half sigh she
thought of the good old times when John
would come to her chamber-door in the
morning, to get her out to look on scenes
like that.

"Positively," she said to herself, "I must
injure some one to visit me. One
wondered how to help one to enjoy solitude."
The stock of social life in Springfield, in
fact, was running low. The Lamonts and
the Wilcoxes had gone to their Boston
homes, and Rose Ferguson was visiting in
New York, and Letitia found no more
to do to supply her place to her father and
mother, that she had less time than usual
to share with Grace. Then, again, the
Elm-street cottage was a walk of some con-
siderable distance; whereas, when Grace
lived at the old homestead, the Fergusons
were so near as to seem only one family,
and were dropping in at all hours of the
day and evening. "Whom can I send for?"
thought Grace to herself; and she ran over
mentally, in a moment, the list of available
friends and acquaintances. Reader, perhaps
you have never really estimated your friends,
and you have tried them by the question
which of them you could ask to come and
spend a week or fortnight with you, alone
in a country-house, in the depths of winter.
Such an invitation supposes great faith in
your friend, in yourself, or in human na-
ture.

Grace, at the moment, was unable to
think of anyone who she could call for the
approaching festivities of holiday.

In the midst of her thoughts, a knock
in the entry to her snow-parlor with her
her so opened a knock for company, and
turned to where her ladyship breakfast table
with its hot coffee and crisp rolls, stood in-
vitingly waiting for her before the cheerful
open fire.

At this moment, when Grace was in the
first summer of her womanhood, she had been
very intimate with Walter Sydenham, and
hearty extended her hand to him, but as
many another good girl has done, about
those days, she had conceived it her duty
not to think of marriage, but to devote
herself to making a home for her widowed
father and her brother. There was a
certain amount of self-sacrifice in this
disposition of herself which was rather
pleasant to Grace, and in which both the
gentleman concerned found great pleasure.

A. ROBERTSON,
P. R.—Orders may be left at the store of
Hoskins & Harvey.

Belleville, Nov. 27, 1878.

"When, therefore, I learned of your
father's death, and afterwards of John's
marriage, I thought it was time for me
to return again. I have come to New York,
and if you do not forbid, I shall come to
Springfield."

Grace! Why not? We are both alone
now. Let us take hands, and walk the
same path together. Shall we?

Your till death, and after,
"WALTER SYDENHAM."

Would she! To say the truth, the ques-
tion as asked now had a very different air
from the question as asked years before,
when, full of life and hope and enthusiasm
she had devoted herself to making a home
for her father and brother. What other
sympathy or communion, she had
naked herself then, should she ever need
these friends, so very dear; and, if she
needed more, there in the future, was
March 21, 1876.

And now here was, in a house all by
herself, coming down to her meals, one
after another, without the excitement of a
cheerful face opposite her, and with all
possibility of confidential intercourse with
possible, and so on. Little by little, in
matter, acted, with much grace and spirit,
the part of the dog in the manger; and
the dog, which is also regarded as a
house for her father and brother. What other
sympathy or communion, she had
naked herself then, should she ever need
these friends, so very dear; and, if she
needed more, there in the future, was
March 21, 1876.

Daily Intelligencer.

WEDNESDAY, MARCH 22, 1876.

Town and Vicinity.

ARRIVED.—The S. S. Polaris arrived at Portland at 8:40 a.m. The mails left at 9:20 a.m.

CHURCH.—A further advance of 61 per cent in cheese in the English market is reported by cable to-day.

IN TOWN.—Mr. James C. Curran, of New York, is in town. We are pleased to see that our former townman is looking well in health, as usual.

A BIG LIST.—There were thirteen vagrants and no prisoners in the cells last night. This is the largest list of the season.

PROSECUTION.—Among the persons recommended by a Committee of the Toronto Bar as Benchers of the Law Society, is Mr. John Bell, O.C. of this town.

REASONING.—Though the rain has yet to let fall, the sleighing is first class, and business men are hoping that the snow will remain for ten days or a fortnight yet, in which case business will be greatly benefited.

DESTRUCTIVE HURRICANE.—A cable telegram from London has been received stating that a heavy snow has occurred there. A fearful hurricane has occurred in the provinces and along the coast of the Mediterranean. A great amount of damage has been done.

INTERIM SENTENCES.—McCormack, alias Thompson, who stole a horse and buggy from Felix Graham, was fined before Judge Lacombe this morning. He pleaded guilty, and was sentenced to imprisonment for three years.

LEGAL.—The following local cases before the courts in Toronto on the 21st: *Sandford v. Bogart*. Mr. Delahogue obtained an order for leave to sign judgment. In the same case Mr. Delahogue made an order of reference. A ruling of the court was given in the case of *Delahogue v. Delahogue*. Mr. Delahogue obtained a summary to put off the trial.

THE RIVER.—Anchor lies at the mouth of the river has blocked the flow of water in the Meira, and a portion of the flats in the vicinity of Flint & Horton's mill has been flooded to the depth of a foot or more. On Sunday the water rose into the mill, but it has since fallen. The water at present the river is full of ice up to the foot of the island below Coleman's dam, and if the weather changes suddenly there is danger of a flood, as the outlet for the water of the river is a very small one.

THE HOLMIST.—This excellent opera troupe will commence their season of three nights here in the Metropolitan Hall to-morrow night when *Leona's* new and beautiful comic opera "Gloria Gilda" which has met immense success wherever produced. Miss Sallie, who is a great favorite here, will perform the title role in the remaining three nights.

THE EAST-FAIR.—The East-End Cattle Fair is to be held on the market square on Wednesday, 12th of April, the sale of stock commencing at 10 a.m., and closing at 6 p.m. We trust that the fair will be well attended, and that the stock will be well cared for, and that the fair will be a success.

THE EAST-FAIR.—The East-End Cattle Fair is to be held on the market square on Wednesday, 12th of April, the sale of stock commencing at 10 a.m., and closing at 6 p.m. We trust that the fair will be well attended, and that the stock will be well cared for, and that the fair will be a success.

and it can be found in all first-class Drug Stores. Consumers of the

will find it more profitable than the other size, as it contains nearly three times the quantity.

Daily Intelligencer.

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

TUESDAY, MARCH 21.

A number of public measures were advanced a stage.

Mr. Laird moved the second reading of the Bill to amend and consolidate the laws respecting Indians.

Mr. Schults opposed the new provisions embodied in the Bill.

Mr. Patterson supported the Bill, and contended that among the Indians of Brant there was a large number who were qualified to make his way in the world.

The ultimate issue of an Indian policy was to be found in their enfranchisement. Under the Indian Bill of the late Government only one Indian was enfranchised.

Mr. Langens called attention to several details of the Bill which he thought might be improved.

Mr. McGregor said he believed the Bill was a measure in the right direction.

He spoke highly of the Indians in his section of the country.

Mr. Gairdner said he believed the Bill would be a good improvement on any previous Indian legislation. Many of the Indians were more competent to exercise the franchise than many white men.

Mr. Fleming said he thought the Indian should have as much chance as the white man to make his way in the world. He supported the Bill generally.

After some remarks by Mr. DuCombe the Bill was read the second time.

Hon. Mr. Cartwright moved the House into Committee of Supply.

On the item of \$25,000 for the Guelph Custom House and Post Office, Mr. Cartwright moved the House into Committee of Supply.

Mr. Bowell called attention to the large amount of public money being expended in Guelph and he moved the Government would extend the principle to other towns of similar population.

Mr. Tabor (Brant), reminded the Premier that during the last session he had promised to consider during the recess a plan for erecting public buildings in the larger towns. He hoped other towns would be treated in the same manner as Guelph.

Hon. Mr. Mackenzie said that he had intended to adopt such a policy, but the amount expended must depend upon the amount of business done upon that point.

He found a great difficulty in getting a suitable building in Guelph, and in order to accommodate the public business, he was compelled to ask a vote to erect a new building. There were several buildings in the town in the hands of the Government, and he hoped that some of them might be found necessary to erect similar buildings.

Several other members having urged the claims of their respective constituencies, Mr. Bowell called attention to the comparatively large business done in the Belleville Custom House.

The matter then dropped, the House adjourning at 1 a. m.

England.

Dr. Gurnett, an eminent musician, has died in London at the age of 71.

The cadets on board the Britannia training ship have been ordered to be taught Latin.

Between 1,200 and 1,500 persons are about to be displaced in Dorset by railway improvements.

The training ship that will be placed in the custody of the Doz will be exclusively for Welsh boys.

The total number of emigrants from the United Kingdom in 1875 was 175,909, against 161,014 in 1874.

The presentation of the freedom of the City of London to the Lord Chief Justice of England will take place in the afternoon.

The death is announced of Mr. Durol Thomson, senior Fellow of New College, Oxford, aged 80 years.

An influential meeting has been held in Liverpool to make arrangements for holding the Social Science Congress in October.

The Rev. Edwin Abbott, M. A., of St. John's College, Cambridge, has been elected to the vacant (Divinity) Lectureship for the ensuing year.

Further papers have been published regarding the concessions, conventions, and statistics of the Suez Canal Company with the Suez's terms.

The "Countess of Derwentwater" has been sentenced to several hundred land and householders in the western quarter of Durham for trespass.

The Queen has conferred the dignity of a baronetcy upon General the Hon. Sir Edward Cust, who has resigned the office of Master of the Ceremonies to Her Majesty.

In the Sheldonian Theatre, Oxford, on the 22nd ult., His Royal Highness Prince Leopold was installed Provincial Grand Master of Oxfordshire Free Masons.

About 1,000 Liverpool ladies have signed a memorial to the drapers in that town requesting that extra should be provided for the assistance of women not engaged.

The Empress of Austria has taken Easton on Nelson, Worcester, Northamptonshire, belonging to Mr. Keble. The ex-Queen of Naples, sister of the Emperor, is putting another residence on the sea coast of Naples.

In addition to the memorial to the late Bishop Thirlwall in St. David's Cathedral, it is proposed to endow a fund for the endowment of a Third wall Professorship of History in the University of Cambridge.

The Earl of Devon has suggested that a memorial of the late Sir John Taylor Coleridge should be raised in the shape of a window in the nave of Exeter Cathedral. The consent of the Dean has been obtained.

The army estimates for the year 1876-77 propose an increase of the home and colonial forces from 120,381 to 132,881 men, and the amount of the estimate is £15,281,000, against £13,777,700 last year—an increase of £1,503,300.

General Mansfield has been appointed Justice of the Peace for His Majesty, the King, at the Court of St. James. He was

Prime Minister from 1867 to 1880, and is decorated with the Collar of the Annunziata, which confers the rank of cousin to the King.

Her Majesty the Queen has signed her consent to become a patron of the Art Treasures Exhibition which is to be held in Westminster in connection with this year's Festival, in August, when Her Royal Highness the Princess of Wales is expected to preside.

A meeting called at Woolwich to decide on the adoption of the Public Libraries Act was presided over by an oppositionist, who, however, in a most uproarious manner, they replaced the chairman with a nominee of their own, and carried a resolution against the adoption of the Act by an overwhelming majority.

Ireland.

The Royal Commission on railway accidents met at Belfast on the 19th ult.

The General Synod of the Irish Episcopal Church will meet on April 20.

There are great rejoicings at Drogheda, County Antrim, over the victory of Donald in the Waterloo Cup.

The Bishop of Munster, who is to preside at the Berlin Ecclesiastical Council to take his share of a charge of involving the penalty of deposition.

The Belfast shipwreck decided on the 19th ult., that while modification was to be preferred, the Government was not to be credited for an honest intention to legislate fairly on shipping matters, but that their bill required modifications in Committee.

Sir Arthur Guinness, Bart. M. P. for Dublin, having offered £20,000 as a gift to effect the opening of St. Stephen's Green to the public, a controversy has arisen as to what the Government should do with the park of Dublin should abandon their trust and the special privileges of the residents in favor of the common people.

The steamer Pelican has arrived at Cork from Cardiff, and on the halcyon being opened a man was found in the hold in a semi-conscious state. It appears from his statement that he had been six days without food. He was at Cardiff, but failed to get on board, and after fasting two days he stowed himself away in the hold of the Pelican.

A meeting of the Irish Cattle Trade Devel. Association has been held in Dublin at which a resolution was passed concerning the proposal of the Government to make regulations regarding the slaughter of cattle afflicted with pleuro-pneumonia for the United Kingdom, not as consequence of any serious amount of that disease in Ireland, but to ally English apprehensions.

A rather unusual incident characterized the proceedings of the County Kildare Hunt on the 21st ult. The meet was at Sappagh, and soon after leaving the huntmen came upon the ground of a small farmer, who had previously complained of such trespassers on his land. He had, therefore, secured the gate with his whip. The case, it is believed, will form the subject of a law suit.

ILLUSTRATED.

Notice of the Press.

The Bazar is edited with a combination of taste

and talent that we seldom find in any journal;

and the journal itself is the organ of the

great world of fashion—Paris, London, and

the household to the children by its fab-

ricious illustrations in costume variety, to the

young ladies by its patterns for the dresses

to be made, to the young men by its

illustrations of the latest fashions in

broader silhouettes and beautiful drawings of

the most celebrated artists of the day.

The Bazar is a most valuable and

entertaining journal, and we are glad to

recommend it to all our readers.

—N. Y. Tribune.

Daily Intelligence.

FRIDAY, MARCH 24, 1876.

Town and Vicinity.

POLICE COURT.—There was no business in court this morning.

THE DORRINGTON.—There were eight in-
sults of the call last night, all of whom
were sent out of work."DORRINGTON'S" hold a meeting to-
night at 8 o'clock in their rooms over the
Nathan Jones' Store. An invitation is ex-
tended to all.EARLY CLOSING.—We learn that a move-
ment is on foot in the dry goods trade in
town to business the 8 o'clock closing move-
ment throughout the year.JEWELRY.—Large numbers of these articles
are pendent from the eaves of buildings
which front on the streets. They should
be removed at once, as their presence is a
constant threat against the safety of the
pedestrians who pass beneath them.PERSONAL.—Mr. Geo. W. Morse, of
Toronto, President of the Belleville Street
Railway Company, was in town today, his
object being, we understand, to discuss
with the Street Committee some points of
difference between the Town and the Com-
pany.INCENDIARY FIRE.—An old frame house
on the corner of Piusale and Dundas
streets, which has been unoccupied for
some time, was set fire to by some
persons unknown about 12 o'clock last
night, and was burnt to the ground. It
was one of the oldest houses in town, and
with its demolition one of the old land-
marks has disappeared. The fireman were
prompt in turning out, and worked ener-
getically. The house was owned by Messrs.
Smith, whose loss is not more than \$100."CYPRIOT GEORGE."—A large audience
attended the first performance of the Hol-
man in the Metropolitan Hall last night,
when the opera house named was pro-
duced. The merits of the opera were fully
up to expectation, the plot being of the most
intriguing nature, and the music of a su-
perior order, some of the songs being worthy
of a place in a grand opera. One and all,
the characters were nicely costumed and
ably performed. Misses Sallie and Julia
of course gave great satisfaction, and Mr.
Bradley displayed all his old-time ability
in the character of the ancient savior
Aurora. Messrs. Bradshaw and Sydney,
the tenors, were very acceptable, the spir-
ited acting of the former being especially
worthy. Mr. Barton, as Don Juan, was
exquisitely funny, and at the same time
highly artistic, a better piece of charac-
ter acting than his last night's perfor-
mance having seldom been seen on the Bel-
leville stage. We doubt if his singing was
equally represented than by Mr.
Ellis Ryan. The vocal resources of the
actor are great, but Mr. Ryan easily mas-
tered them, and his make up and acting
were fully up to his vocal efforts, which
were in the highest degree
commendable. A deep voice of
the most quality—extensive range,
and perfectly clear throughout its entire regis-
ter. He is a decided acquisition to the
company. Mr. A. H. Holman and the other
performers acquitted themselves well in
the night opera. "La fille du Malabar"
Anglo, a favorite with the public where it
has been presented, will be produced for
the first time in Belleville.THE CARBET FACTORY.—We yester-
day visited Mr. Geo. S. Tickell's carbide
factory, in the same building as Thompson's
saw factory, West Belleville, and were
somewhat surprised to see the extent to
which the establishment has grown under
the proprietor's enterprising management.
In the first room were large piles of sea-
soned lumber, ready for immediate use.
Opening a second door, over which a poster
bore the name of the proprietor, we found
himself, a number of men being
employed working at circular hand and jig
mills, turning machines, shaping machines,
planers, turning lathes, and other machin-
ery, making all kinds of furniture, from
the ordinary office desk to the most elab-
orate chair. According to the light of the
parlor chair, the wooden chair de-
partment was reached. Here were hun-
dreds of this class of chairs in process of
manufacture, the patterns of the articles
turned out being two in number.
We learned that he is able to compete with
any in his line, and if carried away him any
protection against the United States, he
could manufacture other goods now sold in
a peck as cheaply as those that are now
imported from the United States, and
even as a Canadian manufacturer attempts to
compete with them, they bring their work
"proceeds into operation" and crush
competition. The "tickell" has employ-
ment during the winter, and considering the
large amount of material which he uses
and the consequent considerable sum in-
vested in his business.

he expends in our midst, he is worthy of a
liberal patronage from those who wish to
encourage home manufactures.

LOCAL.—The following proceedings in
local cases were held in Common Law
Court in Toronto yesterday: John-
son v. Provincial Ins. Co.—Lyon obtained
an order for exhibit. Ross v. Grand Jun-
ction Railway.—Crickmore sought to
repudiate a strike on a replication. The
defendants asked for a replication. The
plaintiff agreed to pay \$1,000 to the plaintiff,
in compensation for lands which they had
taken possession, and that the plaintiff was
ready and willing to give a deed of the
lands in those terms, but the defendants
did not pay the sum agreed upon. Crick-
more contended that it was not necessary
for the plaintiff to aver that he had ten-
dered a deed. It was deemed necessary to
prepare the deed and tender it to the
plaintiff for execution. Other cases.
Since the plaintiff was the active party in
the matter, it lay on him to show that
everything had been done necessary to en-
title him to receive payment for the lands.
The case would have been different if the
defendants had been bringing the action
against the plaintiff. In that case it might
have been necessary for them to show that
they had tendered a deed to the plaintiff
for signature. Reserved. Brooks v. Taylor.
—Elargued till to-morrow.

A Remarkable Timepiece.

THE GREAT STRASBURG CLOCK BEATEN BY AN
ENGLISHMAN.

(From the Christian Union.)

A German of Cincinnati has invented a
clock which, though much smaller than the
celebrated one at Strasburg, is, from its
description, much more complicated. We
are, in a deed, a little clock, which is a
shaped clock, four feet wide at the first
stage and nine feet high. The movement
is in the first stage, and the clock is a
column, within which swings the pendu-
lum. The second story consists of two
pendulums, one on each side of the main
column, within which swings the pendu-
lum. The third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The tenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eleventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twelfth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fourteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventeenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The nineteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twentieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The twenty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirtieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The thirty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fortieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The forty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fiftieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The fifty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixtieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The sixty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The seventy-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eightieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The eighty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninetieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The ninety-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundredth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-tenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eleventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twelfth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fourteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventeenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-nineteenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twentieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-twenty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirtieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-thirty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fortieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-forty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fiftieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-fifty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixtieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-sixty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-seventy-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eightieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-eighty-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninetieth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-ninety-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundredth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-first story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-second story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-third story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-fourth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-fifth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-sixth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-seventh story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-eighth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-ninth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-tenth story consists of two pen-
dulums, one on each side of the main
column, within which swings the pendu-
lum. The hundred-hundred-eleventh story consists of two pen-
dulums, one on each side of the main

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

THURSDAY, March 23.
In the House of Commons, a number of petitions were presented, praying that the bill to amend the Criminal Code, 1875, be passed, and that the bill to amend the Criminal Code, 1875, be passed.

The Quebec Grand Jury question was again brought up. Mr. Blaisard, speaking, said that the Grand Jury in Quebec had been abolished, and that the jury system was being introduced. He said that the Grand Jury in Quebec had been abolished, and that the jury system was being introduced.

A vote was taken on the question of the Grand Jury in Quebec. The result was as follows: Ayes, 10; Noes, 10. The motion was carried.

The matter then dropped.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Mr. Greenway then moved for the adjournment of the House until the 27th inst.

The motion was carried.

Professor Macoun, of Albert College, Government House, gave the following testimony before the Committee on the Migration and Colonization at its meeting at Ottawa on the 24th. He had visited the Northwest with Sanford Fleming in 1872, and had again last year, when he was appointed to examine Peace River Valley. In 1872 he was Peace River rising on the 27th August at Edmonton, and on the 12th August at Little Lake, on the 21st July last. He had been on the 26th parallel of latitude, they had a dinner of new potatoes; and at Verulam, on the 27th August, barley was at its height and the wheat was ripe. The samples of these grains had been brought to Ottawa and weighed, the barley weighed 60 pounds and the wheat 60. The wheat was from 5 to 6 inches long, and with from 60 to 100 grains in each head. At the same place he found potatoes untouched by frost on the 22nd Sept., while potatoes at Manitoba had been destroyed a month earlier. The fertile land extended at least 100 miles on each side of Peace River, and was 700 miles in length, with scarcely a break in the whole country.

He collected plants at different points from the Rocky Mountains to Arthabaska, and found that the climate was warmer the further north he went. The same plants were found on Peace River as on the shores of Lake Ontario. At an elevation of 740 feet above the valley of Peace River he found the earth covered with grass, and from the height of 750 feet he saw only the last ten years, the ice on the Peace River broke up about the middle of April, according to the records of the Hudson Bay Company's agent at St. John. In the Rocky Mountains the ice was only broken to form when the Red River was frozen over. There were 252,000 acres of land in this Northwest, one half of which was well adapted to wheat raising. Cereals grown in these high latitudes were seldom touched by frost. The Peace River district was heavily timbered. On being questioned as to the advantages of the Pacific Railway as a means of opening up the settlement, he said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

He said that the railway would be a great benefit to the Northwest, and would be a great benefit to the Northwest.

Dr. Campbell, of Toronto, expressed the opinion that the girl Barry came to her death through her own act.

The House of Commons, by a vote of 10 to 10, passed the bill to amend the Criminal Code, 1875.

Daily Intelligence.

SATURDAY, MARCH 25, 1876.

Town and Vicinity.

THE ARRIVAL.—The Spring Airlines will
arrive on Tuesday at noon. There is
likely to be a large crowd.

MURKIN CLUB.—The annual meeting
of the Murkin Club will be held in the
Shire Hall on Monday night.

LAST DAY.—To-day is known as Last
Day, being the festival of the annunciation
of the Virgin Mary. It is a *fele obligation*
in Quebec.

IN DURENCE.—Only one prisoner left in
the clutches of the police last night, but
the accommodation of the Station were
filled up by seven teams.

MID-LENT.—To-morrow will be Mid-
Lent. It is also known as the Sunday of
Reflection, from the miraculous feeding of
the multitude by Christ, which is described
in the Gospel for the day.

THE MR. W. J. JAMISON OF MILL POINT.
has about finished loading his schooner
Fergusson with ice, for Cleveland, Ohio, and
is at work putting a large quantity of
ice in store to ship to America ports
during the coming summer.

NEW POST OFFICE.—A new post office
has been opened at Ferry Point, under the
name of Rosemont. Mr. Daniel Gerow is
Postmaster. This office will be a great ac-
commodation to the large population which
now resides in the vicinity.

ASSASSIN.—The assassins are proceed-
ing with their work, which draws well
towards a close. They have been in-
dustrious, but the amount of work to be
done in assassinating the town is large, and
the great number of new buildings put up
last year renders it an arduous task.

RULE FOR ADVERTISING.—Don't advertise
unless you have something worth buying.
A great many persons suppose advertising
is sufficient. This is a very bad error, as
it is to suppose that having the goods
sufficient alone. You must do both—have
the goods, and let people know you have them.

THE HOLMAN.—The American performer
of the name Angel's Daughter, is
acceptably last night to a large audience.
The performance will conclude to-night with
the season of the "Grand Duchess of
Genoa," in which their excellence is
well known. The season here may be set
down as fairly successful.

"OVERSEAS DELIA."—The Nipawase Steamer
will leave for Montreal, on Saturday, con-
structing two ballast tanks for the *Genoa*.
Bella. Their weight will be three tons and
they are calculated to hold seventeen tons
of water. They are to be filled with water
as occasion demands, to "trim" the steam-
er.

BUILDING OPERATIONS.—The builders
are as active as ever, and to let
advertising, probably, of the cheapness of
land at this season. Work is being pro-
ceeded with on Mr. Robertson's block on
Front Street, and in Murray Ward, there
is a large amount of work being done,
several houses being now in course of
construction.

NEW DOMINION MONTREAL.—The number
for March has been received. It has a
very attractive list of contents, the various
departments being well filled with a choice
variety. This monthly has lately shown no
decline in popularity, and is well
worthily of general patronage. Published
by John Dougan & Son, Montreal, at \$1.50
a year.

THE MARKET.—The stormy weather of
to-day caused the attendance to be small,
and prices were exceptionally high. Mutton,
lamb and veal, 10 to 12c; beef, 8 to 9c;
veal, 8 to 10c; pork, 8 to 10c; and water
20c to 30c, per bush. Eggs, 10 to 12c,
per dozen. The grain market also
showed an upward tendency. Pass
70c to 11c, 75c to 10c, and oats 58c
to 60c, per bush.

PERSONAL.—The Whitty Gazette of the
24th says: "We regret to learn that Mr.
N. O. Reynolds, Sheriff of this County, re-
ceived a stroke of paralysis yesterday morn-
ing while in Mr. L. Allen's bookstore. He
was conveyed home, and Dr. Gunn was
called. On going to press we learn that he
is much better and likely to recover." This
news will be read with regret by Mr. Reynolds'
many friends here.

AMERICANISM.—The correspondent of
the *Pictorial Gazette* writes: "The temper-
ance lodge at Mountain View has been re-
vived under the auspices of the United Tem-
perance Order, and with so zealous a Presi-
dent at their head as Mr. Howell, great
success must be looked for at their hands.
The concert held at Robin's Mills the
other evening, although the attendance was
not very large, yet was very
well patronized. The musicians were from
Belleville, and acquitted themselves in a
highly creditable manner by the excellent
music discoursed, and should they see fit

MORNING DISPATCHES.

to-night make us a visit they would re-
ceive a hearty welcome. Mr. L. Allen, who
had made nearly 100 lbs of sugar up to
Tuesday, 7th."

THE ECLIPSE.

The Eclipse.—The eclipse of the sun
which took place this afternoon was not a
total one, but a brilliant luminary, persistently
refusing to show his face during the en-
tire day, hiding behind a mass of dingy-
looking clouds.

LOCAL.

The following local items were
from the *Courier* in Toronto on the 24th:
"Rose of Grand Junction Railway.—Sum-
mers discharged with costs a plaintiff in any
event of the case. Grand Junction
Railway v. Bickford.—H. Cameron, Q.
J. vs. A. J. Boyd, Q. J. E. Crombie &
Vanquaque for the defendant's whoop, 10c,
Belleville, Q. J. & Moss, contra. Reserved.

RUNAWAY.

A horse belonging to Mr.
Elliott, Esq., of the City, was run away
on Tuesday at half past one, and was
at the lower bridge smashed the cut-
ter to which it was attached. The animal
after a journey at a high rate of speed up
St. James Street, with the shaft of the cutter,
was brought to a standstill by some boys,
and returned to its owner, not much ab-
solved for its rapid flight.

CENTENNIAL YACHT RACE.

The *Centennial Yacht Race*, which
will be held on Monday, will be the
first to be used as a trial for the Cen-
tennial Yacht Race. The race will be
brought down to a standstill by some boys,
and returned to its owner, not much ab-
solved for its rapid flight.

GRAND REVEAL.

An organ recital and a
sacred concert will be given under the di-
rection of Mr. Whith, in the Bridge Street
Methodist Church on Friday evening next,
when the formal opening of the new and
improved organ supplied to that church by
Messrs. S. R. Warren & Co., of Montreal,
will take place. This organ, which has cost,
we understand, \$4,000, is the largest and
most complete mounted in Ontario, and
as a specimen of Canadian skill and work-
manship it reflects the greatest credit
upon the builders. The scheme and speci-
fications were submitted to the committee
by Mr. Whith, and he has endeavored to give
it a future life. The organ, which has cost,

MORNING DISPATCHES.

to-night make us a visit they would re-
ceive a hearty welcome. Mr. L. Allen, who
had made nearly 100 lbs of sugar up to
Tuesday, 7th."

THE ECLIPSE.

The Eclipse.—The eclipse of the sun
which took place this afternoon was not a
total one, but a brilliant luminary, persistently
refusing to show his face during the en-
tire day, hiding behind a mass of dingy-
looking clouds.

LOCAL.

The following local items were
from the *Courier* in Toronto on the 24th:
"Rose of Grand Junction Railway.—Sum-
mers discharged with costs a plaintiff in any
event of the case. Grand Junction
Railway v. Bickford.—H. Cameron, Q.
J. vs. A. J. Boyd, Q. J. E. Crombie &
Vanquaque for the defendant's whoop, 10c,
Belleville, Q. J. & Moss, contra. Reserved.

RUNAWAY.

A horse belonging to Mr.
Elliott, Esq., of the City, was run away
on Tuesday at half past one, and was
at the lower bridge smashed the cut-
ter to which it was attached. The animal
after a journey at a high rate of speed up
St. James Street, with the shaft of the cutter,
was brought to a standstill by some boys,
and returned to its owner, not much ab-
solved for its rapid flight.

first to be used as a trial for the Cen-
tennial Yacht Race. The race will be
brought down to a standstill by some boys,
and returned to its owner, not much ab-
solved for its rapid flight.

GRAND REVEAL.

An organ recital and a
sacred concert will be given under the di-
rection of Mr. Whith, in the Bridge Street
Methodist Church on Friday evening next,
when the formal opening of the new and
improved organ supplied to that church by
Messrs. S. R. Warren & Co., of Montreal,
will take place. This organ, which has cost,
we understand, \$4,000, is the largest and
most complete mounted in Ontario, and
as a specimen of Canadian skill and work-
manship it reflects the greatest credit
upon the builders. The scheme and speci-
fications were submitted to the committee
by Mr. Whith, and he has endeavored to give
it a future life. The organ, which has cost,

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

FRIDAY, MARCH 24.

The House was engaged during the night

entire sitting in Committee of Supply.

The House resumed its sittings at 10 o'clock

on the 24th inst.

During the discussion of the Postal printing

bill, Mr. Tupper brought special charge

against Messrs. Vail and Jones of being

interested in the Halifax contract, which

agreed nearly \$200,000 worth of printing

for the Government.

Mr. Jones rose to reply, and said this under

evident trepidation, but added personal in

terference, and was not permitted to say

anything more.

The Minister of Militia then got up, but

did not say anything more.

He entered into a lengthy harangue

entirely foreign to the subject, as to which

every newspaper had received a formal

Government was in power. He, however,

failed to do what the House expected, and

denied that he was not particularly interested

in the Halifax Printing Company of Halifax.

Mr. Bowell called the attention of the House

to the fact that the Minister of Militia

was not only interested in the Halifax

Printing Company, but was also interested

in the Halifax Printing Company of Halifax.

Daily Intelligence.

TUESDAY, MARCH 28, 1876.

Town and Vicinity.

New Home.—The 1,000 feet of new home ordered some time ago for No. 1 engine, has arrived, and was to be tested this afternoon.

Social.—The "Dickens Social" will be held in the Metropolitan Hall this evening, under the auspices of the M. E. Church. See advertisement.

Freight.—Freight prospects are not quite so bright as they were a short time ago. Charters from Toledo to Ogdensburg have been made at 7 cents per bushel for corn.

Shipping.—Last night's frost greatly improved the shipping and farmers declare that the roads were never in a better condition than at the present time, the snow being nicely packed and the roads well covered in all places.

Concert.—The organ in the Bridge Street Methodist Church is rapidly approaching completion, and will be in perfect order for the second concert, which will be on Friday evening. We hope to see the Committee's labors rewarded by a large attendance.

Fell.—The cells were filled last night with thirteen inmates, of whom two were prisoners and the other eleven were laborers bound out in search of work. These men seemed to have experienced hard times, and were thankful for the regulation breakfast of bread and water.

Navigation.—Whist Osgood and some other parties are preparing for the opening of navigation, nothing is being done here towards fitting out the vessels in the harbor, as the ice is now as firm as at any time during the winter, and the probability is that navigation will open late on the Bay this year.

The Market.—The attendance on the market this morning no doubt induced by the good state of the roads—was very large, about equal to that of an ordinary Saturday. Prices in various articles are on the decline, better selling at from 22c to 25c per lb., and eggs ranging from 12c to 15c per dozen.

News from abroad.—A Brockville paper of the 27th says: "The late Mr. Foran is stopping at a hotel in Belleville and giving a concert under the auspices of the Y. M. C., to-morrow evening. The musical portion of that place, which is a new and novel kind of concert, with a vengeance. Barring the facts that Mr. Foran is not at a hotel in Belleville and that she will not give a concert this evening under the auspices of the Y. M. C., for the very good reason that there are no such organizations in this town, the facts stated are strictly accurate. Perhaps our contemporary means some other Belleville; or, it should designate the place more particularly.

Memorial Address.—The Queen's College Journal of last week says: "On Thursday evening, 16th inst., the Rev. M. W. Maclean, of Belleville, delivered an address before the Missionary Association of the College. The address was of an eminently practical character, full of information and advice, drawn from Mr. Maclean's personal experience in mission work, and was just the kind of address required by young men about to engage in missionary labors. The Rev. gentleman recognizes fully the importance of home mission work, and has a very firm feeling towards student missionaries. It is to be hoped that the Association will be privileged to have frequent visits from him and to spend many such pleasant and profitable seasons as that on Thursday evening."

An Inquirer.—Many of our readers may have, within a few days past, observed an old man soliciting charity about the streets. He was an ancient mendicant was deaf and dumb, and when spoken to produced a slip of paper on which was written in bold characters, signed by one John Dixon, Esq., the information that one Mary Jones, whom every person would naturally suppose to be the bearer, had been struck dead and dumb in the Township of Markham. On the strength of the document, his bearer, who is really a feeble old man, exacted a good deal of sympathy and made corresponding profits. Last night, however, his bogus pretensions were fully exposed. He took rather too much whiskey from one of the bottles of that which he carried in his pocket, and beheld the dumb's spoke and the deaf found his hearing, under the mellowing influence of this one drink. The police saw the impostor at once, and put the old fellow in the cells for safe keeping. He gave his name as Joseph Anyott, his age as 72, and his place of birth the Province of Quebec. On searching him, the document spoken of, carefully wrapped up, two small bottles containing a little whiskey, and one

PERSONAL.

The present sitting of the Assizes is the first held by Mr. Justice Burton in the County of Hastings, since his appointment to the Bench.

Local.—The following local news and Chaucery cases were before the Court in Toronto on the 27th: Lake vs. Prince Edward. Burdett obtained summons for further time to give notice of appeal. Coleman vs. Redick. Clerk vs. Redick. Order discharging summons. Brooks vs. Taylor. Crickmore obtained order for exhibit. Bickford vs. Grand Junction Ry. To be argued on a certain point.

Merkison Club.—The annual meeting of the Merkison Club was held at evening in the Shire Hall, when the following gentlemen were elected officers for the ensuing year: President, Prof. J. T. Bell; Vice-president, Prof. J. Macoun; Treasurer, W. W. P. P.; Recording Secretary, S. Gardner; Corresponding Secretary, J. D. Evans. The subject proposed for discussion at the next meeting, on the following Monday in April, is the natural history of the Articulate animals.

Insurrection for the Debt and Demerit.—It is known to the public generally, that an investigation has been in progress at this institution, into certain charges against the Principal. The Hamilton Times some time ago stated that "harsh treatment of the pupils" was one of the charges. The investigation, we understand, has closed, and the father of the young man who made the complaint was satisfied with the result and intends sending his son back to school. The examination was most thorough and searching into the general management of the institution and in common with the people of Belleville, we feel gratified at the result, exonerating it from the Principal from blame, and sustaining him in the management of the institution. It will also be gratifying to the public throughout the Province, who have a deep interest in the welfare of this institution, and most sincerely do we hope in common with the general public, that it may continue in the future as in the past, to prosecute its noble work, under the able management of its very worthy Principal.

Police Court.

(Before A. Diamond, P. M.)

Tuesday, March 28.

Michael O'Connor, a recent importation, forwarded here by the Emigration Agent at Kingston, and the Chief Clerk is one of Jackie's victims, professed his willingness to work, but could get nothing to do. Constable McCoy stated that prisoner was drunk last night, and the Chief Clerk is one of Jackie's victims, professed his willingness to work, but could get nothing to do. Constable McCoy stated that prisoner was drunk last night, and the Chief Clerk is one of Jackie's victims, professed his willingness to work, but could get nothing to do.

Henry Grace and Henry Brough were charged with snow-balling Joseph Hyatt. Plaintiff stated that a number of boys insulted him on Saturday afternoon, and threw snowballs at him, knocking off his hat four or five times. Constable McCoy stated that the boys were charged with snow-balling at her. These boys, the witness said, were a perfect nuisance to the neighborhood. The case was laid over until Saturday, to allow of evidence being procured for the defence.

Richard Corcoran sent Hawley & Menden for \$3, balance of wages alleged to be due. Laid over till to-morrow.

FROM OTTAWA.

MEETINGS OF COMMITTEES.

PACIFIC RAILWAY.

OTTAWA, March 28.—In the Committee on the Depreciation of Trade, Mr. Rillman was examined. He said that the depreciation of trade was a serious matter, and that the Committee was holding a public meeting on the subject. He also said that the Committee was holding a public meeting on the subject. He also said that the Committee was holding a public meeting on the subject.

THE BEST SELLING COTTON FOR HAND OR MACHINE. The Rev. Mr. Maclean, of Belleville, delivered an address before the Missionary Association of the College. The address was of an eminently practical character, full of information and advice, drawn from Mr. Maclean's personal experience in mission work, and was just the kind of address required by young men about to engage in missionary labors.

MORNING DESPATCHES.

EUROPEAN.

ELECTION ANNULLED.

FRENCH WORKMEN FOR THE CENTENARY.

SERVIA'S POSITION.

MERCHANT SHIPPING BILL.

DEATH OF A DIPLOMAT.

THE ROYAL TITLE.

Verkhovsk, March 27.—In the Chamber of Deputies, the election of M. Penitence, Republican, was annulled by a vote of 238 to 103.

M. Duparail, Radical, introduced a Bill authorizing a special grant of \$20,000 to meet the expense of sending French workmen to the Philadelphia Exhibition.

VIENNA, March 27.—The Political Correspondent newspaper reports that the Serbian Minister of Foreign Affairs has just made the following official declaration to Prince Roda, Diplomatic Agent of Austria at Belgrade:—

The Serbian Government has no intention whatever of attacking Turkey or of impeding the work of pacification undertaken by the great powers, a course which might subject Serbia to collective proceedings on the part of the great powers. Serbia's military preparations are merely due to the completion of her military organization.

It is stated that the mission of Petrovic, the Montenegrin Foreign Minister to Graz, to induce the insurgents to stop fighting, has prevailed.

London, March 27.—In the House of Commons to-night, Mr. Pim moved an amendment to the Merchant's Shipping Bill, providing that every British vessel, before sailing from a port of call, should be provided with a certificate of seaworthiness. The Governor opposed the amendment, on the ground that it lessened the responsibility of ship owners.

The amendment was rejected by a vote of 247 to 110.

J. Hiron Montague, Minister of San Domingo to France, is dead.

The Times says the Marquis of Hartington asked Mr. Parnell to introduce a day to the discussion of Mr. Parnell's motion, for an address praying the Queen not to assume the title of Empress. It is expected that in the course of the day, Mr. Parnell will second Lord Shaftesbury's motion.

AMERICAN.

NEW YORK CUSTOM HOUSE.

SUPREMACY COURT.

New York, March 28.—Charges of whole sale corruption against the management of the New York custom house, will probably be preferred before one of the Congressional Committees, within some days, and the lively sensation is said to be in store for the public.

The decision of the Supreme Court, delivered by the Chief Justice in the Grand parcel case, and the Kentucky election case, indirectly declaring the Enforcement Act unconstitutional, caused a good deal of excitement among politicians, and was declared that it less the whole South to the Republicans, and that it imperils the Presidential election of their party.

AFTERNOON DESPATCHES.

UNIVERSITY BOAT RACE.

THE LONDON STOCK EXCHANGE.

FATAL BOILER EXPLOSION.

HORRIBLE SHIPWRECK ON THE ARABIAN SEA.

500 LIVES LOST.

COUNTERFEITER ARRESTED.

London, March 28.—The latest being of the inter-University boat race is six to five in favor of Oxford.

There is little doing on the Stock Exchange. The regular fortnightly settlement, which begins to-day, claiming primary attention. Foreign securities are flat with pressure to sell, and rates for the continuation of contract settlements are rather uncertain. No failures have been announced in the House this far, but the stoppage of one outside speculator is reported, with considerable loss.

It is not probable that the settlement will be completed without trouble, but no important suspensions are anticipated.

Glasgow, March 28.—To-day the boiler of locomotive attached to a construction train on the Glasgow and Southwestern Railway exploded. Five persons were killed outright and nine badly wounded.

London, March 28.—Advice received here to-day from India, by mail, reports that the steamship Cord from Shiraz, has been wrecked in the Arabian Sea. She had aboard about five hundred pilgrims, chiefly Persians, bound for Mecca. Three men, who are supposed to be the only survivors, have reached Bombay.

Washington, March 28.—Ex-Minister Schenck appeared before the Committee on Foreign Affairs to-day, bringing with him a stated filed with papers. He was charged with being weak, not having fully recovered from his recent attack of sickness.

New York, March 28.—Frank Marston has been arrested on the charge of passing counterfeit \$5 bills. The counterfeiters were on the Traders National Bank of Chicago, and were dangerously well executed. The prisoner was recognized as an old offender, and was directed for preparing and using the same, which they will find in the hands of Constable. The prisoner was charged with passing counterfeit \$5 bills, and was charged with passing counterfeit \$5 bills.

Washington, March 28.—Arrived out, a steamer from New York and Indiana from Philadelphia.

L. O. Y. B. Concert in Ottawa.

A CROWDED HALL AND A GREAT SUCCESS.

(From the Ottawa Free Press.)

The Orange Hall was crowded to its utmost capacity by an appreciative audience in attendance at the concert, lately given by the Orange Young Britons of Ottawa, in aid of the Grand Fund of this institution.

The programme, of which we have given a short account below, was in every sense a credit to the managing Committee. This Order was established in this city about two years ago, and they now have two flourishing lodges with a membership of about two hundred.

The chair was taken at 8 o'clock by Bro. Jas. Clark, the band playing Protestant Boys.

Mr. Clark, in a few opening remarks, congratulated the Orange Young Britons on the appearance and intelligence of the audience gathered at their first concert. He stated that he was strongly opposed to the organization being introduced in Ottawa on account of the hard name it had in other parts of the Province, but that was not the case here, and he was conducted on such a plan that there were none, he cared not what religion they professed, but that they were all united in their love for their country.

A number of capital songs were sung, after which the Chairman called upon—

John Warr, M. P., East Hastings, and Grand Master of Ontario East, for a speech.

He said that in looking around at the audience he felt that he was speaking to sympathetic hearts if he could read the Protestant Banners before him. (Applause.)

William the Third had well said that the little island of Great Britain would rule the great continent of Europe.

When that great defender of our faith crossed the Boyes he gained the victory they had won the real true principle of Protestantism to the people of Canada, and that they were all united in their hearts that fought for Britain in India and the Crimea were not discouraged.

Orange Young Britons have an opportunity to cultivate a spirit of moral courage in this land where every man can wear God's armor for his own and his neighbor's good.

He said that he was not a Roman Catholic, but that he was a true British subject, and that he was proud to see the Orange Young Britons, if honest and intelligent, could seek the highest offices of the State.

They were in a peculiar position, being a young corporation, and if they acted in every department of life they were sure to gain their constitution they would succeed in establishing a character and supporting one another at all times.

Orange Young Britons Order provided that only young men could be members, but he was striving to have that altered so that young men could be members of that order.

He said that he was not a Roman Catholic, but that he was a true British subject, and that he was proud to see the Orange Young Britons, if honest and intelligent, could seek the highest offices of the State.

DOMINION PARLIAMENT.

THIRD SESSION—THIRD PARLIAMENT.

Monday, March 27.

Mr. Gordon moved the House into Committee to consider the resolution for a direct and uniform observance of the Sabbath in the public works under the control of the Dominion Government.

After a long debate the motion was withdrawn.

Mr. Aylmer moved for a return of the quantity, &c., of roofing slate imported during the present year from the United States.

He said there were many deposits of slate in Canada, but he was not aware of any that had been developed to any extent.

Within the last few years about \$500,000 had been invested in attempting to open up the industry, but up to the present time it had not been very successful.

The Americans slaughtered their surplus slate in Canada, paying no duty, while the Canadian going into the States paid 25 per cent. The result of this had been the almost total ruin of our manufacturers.

With proper attention to the industry Government he felt sure that this could be remedied. Last year we imported 10,000,000 worth of slate, while if had paid the same duty as marble, would have yielded \$300,000 to the revenue.

He asked for the Government's encouragement for this interest, he was a sectionist, not yet was he a Free Trader. He wanted protection to native industries that if protected would be likely to grow up with the growth of the country.

The motion was carried.

Mr. Palmer moved that the House go into Committee to consider the following resolution:—"That in the opinion of this House, the right of legislation to affect Canadian ships, and the rights and liabilities of the owners thereof, being exclusively to the Parliament of Canada, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the St. Lawrence, and such exclusive rights of the Canadian Parliament, and a violation of Resonable Canadian ships, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the St. Lawrence, and such exclusive rights of the Canadian Parliament, and a violation of Resonable Canadian ships, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the St. Lawrence, and such exclusive rights of the Canadian Parliament, and a violation of Resonable Canadian ships, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the St. Lawrence, and such exclusive rights of the Canadian Parliament, and a violation of Resonable Canadian ships, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the St. Lawrence, and such exclusive rights of the Canadian Parliament, and a violation of Resonable Canadian ships, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the St. Lawrence, and such exclusive rights of the Canadian Parliament, and a violation of Resonable Canadian ships, and that any legislation on those subjects by the Imperial Parliament, except so far as may equally affect Canadian ships with the ships of all other countries in ports of Great Britain, and such as may affect the navigation of the A Child's Heaven.

ST. M. LEWIS.

The room was darkened where she lay,
The young girl sat up in bed,
I watched each movement anxiously,
Each motion and each sigh,
The child my sister lent to me
Was dying death's cry.

I took the little restless hand,
And told her how the angels stand
Cherishing around the eternal throne
Till Heaven's light and love be shown.

She murmured, with a faithful meek,
"I cannot leave the light."

Gently our darling hand I held,
How heaven's white streets are paved with gold,
How there is no weeping, no sighing,
And there is never more a dying.

She turned half wearily away—
"I cannot leave the light."

I prayed one agonizing prayer
That I might picture heaven so fair,
A mother's form bent o'er the bed
Where the weak sufferer lay.

And there was a little child all night,
A sighing, faint "No, No!"

There came a soft step to the door,
A voice we long had waited for,
A mother's form bent o'er the bed
Where the weak sufferer lay.

And there was a little child all night,
A sighing, faint "No, No!"

He stooped to mother's breast
And said, "Will heaven be all like this?"
"Yes, darling," I replied,
"And you could know as I know this."

"How nice," she said, and died.

HIS HONOR AND BIJAH.

AN HOUR AT THE CENTRAL JAIL COURT.

(From the Detroit Free Press.)

"I should like," said Bijah, during
himself up to his full height, just as court
was about to open, "I should like that
noise stopped."

A little old woman who had come down
as a witness rose from her chair very
promptly, and in a piping voice replied:
"I never spoke a word, and I can prove it."

"I didn't infer to you, madam."

"Well, don't look right at me when you
mean some one else. You mean't think,
because you've been Alderman, that you
can look everybody else in the eye."

His Honor put a stop to further discus-
sion by signaling that court had opened,
and he whispered to the old junior:

"Never talk back a woman. Any
ordinary woman could read the New Testa-
ment through while you were grousing
out such a long time after your first
prisoner that his Honor was about to order
an execution fitted out to go in search of
him when he should out."

ON A VISIT.

John Anderson, a great big three-footed
giant with a neck as big as a mail-bag,
stood around in front of the desk and
remarked:

"Good morning."

"It is a good morning for the gutless
and for the weakling, as he signed his
name to the warrant."

"That's just what I am, Judge. The
boys brought me in here for fun."

"Yes—ah—yes. You deny being
drunk?"

"I do, sir."

The officer set forth twenty-one different
statements of facts, one brought the pris-
oner was dead drunk, and another being
that the prisoner was lying in agony un-
able to even shut his mouth against the
snow storm.

"Look like a plain case," remarked the
court.

"Judge," replied the prisoner, in a
quavering voice, "I came to this town on
a visit to my wife's relations, and it isn't
my fault that I'm a stranger here. When I
woke up this morning I was bent all out of
shape, one heel digging into my back and
one of my knees jammed into my ribs. I was
cold, all white with wind, and I've been
damaged over a thousand dollars. I
can't stand to being piled up like stone
wood and flung around."

"There's a man at the House of Correction
who will detect you," said the
court, "and thirty days from now you
ought to be blue and gray and full of
anubion. It makes my mouth water to
think how fat and handsome you will be."

"But what about the damages?" asked
the prisoner. "I can't be used this way
for nothing."

"As soon as you get up there draw on
for a thousand dollars," was the blunt
reply, and the prisoner had to be sealed
on the saw-horse over ten seconds when he
began to whistle "Mollie Darling."

"They say," remarked his Honor as
Alfred Gordon limped out, "that you fell
over a stone in a saloon, kicked a dog,
swore at an old woman and fought the
officers all the way to the station. Is that
the proper way to go to work to get one
of my knees jammed up the ladder of fate?"

"Can I go and tell how it was?" asked
the old man.

"Yes, sir, you can, and if it's just
convenient for you I wished you would
blow your nose over fifty times a minute.
I'll wait till the afternoon and then blow
all you want to."

"I went into that saloon to warm my
feet," began the prisoner.

"A man in there with red hair. He want-
ed to be couldn't lift the saloon-keeper's
coat, and he and I tried to lift the
dog and got two bites on the shoulder.
That made me."

"That's enough," interrupted the court.
"Nobody but a dolt or a drunkard would
try to lift a strong dog. I shall give
you thirty days."

"I won't take it," replied Mr. Gor-
don.

"You'll have to, sir. The law can't
take your nose out of your head. You
have been lifted, and now go your
way."

My way is for home," growled the
prisoner, starting for the door, but Bijah

seized him by the collar and drew him in
and sat him down and whispered:

"Boy, don't rile me! I'm peaceful
now, but if you kick me on the shin again
I'll make you think there are a dozen re-
bells in Mexico."

THE MAN.

Onark Black, a young man with a pug
nose and glazy eyes, was at the wrestling
match, and he went home and threw his
father over a table before he could go to
sleep. He was not early next morning
facing a collar and elbow hold of all his
friends and the more he wrestled the more
enthusiastic he grew. He went into a
grocery on Grand River avenue on Friday
evening and said to the stately proprietor
of that place:

"I can put you on your back in just
seventeen minutes and a half."

"You hurry right out of here!" was the
business reply, and the grocer kept on
doing up packages and darning molasses.

Young Onark was determined to put that
proud-spirited grocer down, and he edged
around and got hold of him. Then the
grocer hauled his back and had been flopped
into a barrel of beans, his back nearly
broken, meat in his eyes, and a bloody
back, some five minutes later he had been
dragged him out doors, piled him up
on the edge of the walk and complacently
observed:

"There, I feel a good deal better, and if
you don't why come in and we'll try it over
again."

The police picked Onark up as he was mak-
ing a great noise with his mouth, and he
wrestled with a little calf all night.

"I can't encourage any such thing," re-
marked his Honor when the story had been
told.

"I don't want to be encouraged," replied
the prisoner: "I want some plans for my
back, some kind of a plan, and a
bottle of salve for this nose."

"You'll have to go up, Mr. Black, for
about sixty days. Must and straw, boots
and hard work and regular hours will
take off some of this enthusiasm and give
you a chance to breathe. Please retire to
the corridor and find a seat and take as
much comfort as you can till the buggy
drive comes."

PERFECTLY SATISFACTORY.

A man of fifty, wearing very large spec-
tacles and a very long coat, was brought
out to answer to the charge of "lightness,"
and the little old woman in the audience came
forward and called out:

"I appear here as his wife and his lawyer.
If anybody says he was drunk they lie!"

"Don't be so fast, woman," replied the
court.

"Don't you dare to call me a fast woman
again!" she shouted, growing a foot higher
every minute.

His Honor looked into his desk to see if
everything was all right, and wore a very
serious face as he looked up his head and
said:

"This man was found hanging to a lamp
post at 11 o'clock last night and calling for
his Sarah Jane. Is that your name?"

"He was, eh?" she asked as she gave the
prisoner a searching glance.

"Called for her over twenty times," con-
tinued the court.

"He did, eh?"

"The officer says that his voice betrayed
anxiety and love, contained his Honor."

"Leave, ah! He's my husband, Judge.
Let him go. Let me settle this case with
himself around in front of the desk and
remarked:

"Good morning."

"It is a good morning for the gutless
and for the weakling, as he signed his
name to the warrant."

"That's just what I am, Judge. The
boys brought me in here for fun."

"Yes—ah—yes. You deny being
drunk?"

"I do, sir."

The officer set forth twenty-one different
statements of facts, one brought the pris-
oner was dead drunk, and another being
that the prisoner was lying in agony un-
able to even shut his mouth against the
snow storm.

"Look like a plain case," remarked the
court.

"Judge," replied the prisoner, in a
quavering voice, "I came to this town on
a visit to my wife's relations, and it isn't
my fault that I'm a stranger here. When I
woke up this morning I was bent all out of
shape, one heel digging into my back and
one of my knees jammed into my ribs. I was
cold, all white with wind, and I've been
damaged over a thousand dollars. I
can't stand to being piled up like stone
wood and flung around."

"There's a man at the House of Correction
who will detect you," said the
court, "and thirty days from now you
ought to be blue and gray and full of
anubion. It makes my mouth water to
think how fat and handsome you will be."

"But what about the damages?" asked
the prisoner. "I can't be used this way
for nothing."

"As soon as you get up there draw on
for a thousand dollars," was the blunt
reply, and the prisoner had to be sealed
on the saw-horse over ten seconds when he
began to whistle "Mollie Darling."

"They say," remarked his Honor as
Alfred Gordon limped out, "that you fell
over a stone in a saloon, kicked a dog,
swore at an old woman and fought the
officers all the way to the station. Is that
the proper way to go to work to get one
of my knees jammed up the ladder of fate?"

"Can I go and tell how it was?" asked
the old man.

"Yes, sir, you can, and if it's just
convenient for you I wished you would
blow your nose over fifty times a minute.
I'll wait till the afternoon and then blow
all you want to."

"I went into that saloon to warm my
